APPRECIATION

I acknowledge with thanks, your letter dated 11th May, 2009 and most sincerely appreciate your expression of love and solidarity for our success in the Re-run Governorship Election of April/May 2009.

It is gladdening to learn that your proposed projects for Emure-Ekiti are still on course and also attracting a wider interest from your American friends who have chosen to join your team.

We are looking forward to your return next January as stated for the commencement of work as directed by God. With God's never-failing support, we are confident that He would insulate the actualization of your dreams from the slowing-down effect of the critical global economic climate.

While thanking you for your stimulating kind words and prayers, please accept the assurances of my warmest regards always.

Engr. Segun Oni
GOVERNOR
